Sujon Roy

Frontend Developer (Next.JS)

Phone : +880 1310391739 || Email : roy754712@gmail.com || Dhaka, Bangladesh Github || Linkedin || Portfolio

Professional Summary :

Frontend-focused Developer with **1.5+ years of experience** building responsive, scalable, and productionready web applications using **React.js, Next.js, and TypeScript**. Strong expertise in responsive UI development, reusable component architecture**, API integration,** state management, authentication, and performance optimization**.** Familiar with backend development and **REST API integration** using Node.js, Express.js, and MongoDB, with a focus on effectively connecting frontend applications with backend services. Experienced in developing **admin dashboards, role-based systems,** dynamic interfaces, and client-facing web applications**.** Currently pursuing a **B.Sc. in Computer Science and Engineering (CSE)** while working on professional frontend projects.

Technical Skills :

- **Languages & Markup :** JavaScript, TypeScript, HTML5, CSS3
- **Frontend :** React.js, Next.js, Redux Toolkit, RTK Query, TanStack Query, Zustand, Tailwind CSS, Shadcn UI
- **Backend :** Node.js, Express.js, RESTful API Design, Socket.io
- **Databases :** MongoDB, Mongoose
- **Auth & Payments :** NextAuth.js, JWT, Role-Based Access Control, Stripe, PayPal
- **Tools & DevOps :** Git, GitHub, Postman, Trello, Figma, Vercel, Netlify, VPS Deployment

Professional Experience :

Frontend Developer | ***softvence agency*** July 2025 – Present

- Built and maintained dynamic, responsive web applications for production clients using Next.js, TypeScript, and Tailwind CSS, improving page load performance and code maintainability.
- Implemented secure authentication and role-based access control using NextAuth.js, safeguarding user data across multiple permission tiers.
- Engineered real-time features, including live notifications and chat, using Socket.io, improving user engagement and session activity. session activity.
- Integrated the Stripe payment gateway to enable seamless, secure online transactions for end users.
- Managed global application state and asynchronous data fetching with Zustand and TanStack Query, reducing redundant API calls and improving UI responsiveness.

Junior Web Developer | ***Data plus*** Jan 2024 – Jan 2025

- Developed and maintained responsive, cross-browser web pages using Next.js, JavaScript, and Tailwind CSS, optimizing UI/UX across devices.
- Automated contact and inquiry workflows by integrating Email.js for form submissions and notifications.
- Partnered with the design team to implement pixel-accurate interfaces using Material Tailwind CSS, maintaining consistent visual identity across the application.

- Audited and improved site performance, accessibility, and SEO, aligning pages with modern web best practices.

Key Projects :

1. Ai-dashboard-generate (saas) **Live-Link || Github**

Next.js, TypeScript, Tailwind CSS, Rtk Query, Shadcn UI, NextAuth.js, stripe

- Built a Next.js-based role-driven web application with admin, super-admin, and user dashboard functionalities.
- Implemented responsive UI, reusable components, and secure authentication/onboarding flow for a modern SaaS platform.
- Developed pricing, subscription, and dashboard modules to support business workflows and improve user engagement.
- Built authentication, onboarding, pricing, and subscription modules to improve platform usability and user engagement.

2. E-comerce (table fresh) **Live-Link || Github**

Next.js, TypeScript, Tailwind.css, Shadcn UI, NextAuth.js, Nest.js.

- Developed responsive and user-friendly interfaces compatible with desktop, tablet, and mobile devices.
- Built reusable and maintainable components using Next.js, React, TypeScript, and Tailwind CSS.
- Focused on clean UI, smooth user interactions, reusable components, and optimized frontend performance.

- **Food order (order food)** **Live-Link || Github**

Developed a fully responsive e-commerce website using React.js, Vite, Tailwind CSS,

- Implemented shopping cart features including add/remove products, quantity management, and dynamic total price calculation using Redux Toolkit.
- Created reusable product cards, category sections, product details, navigation bar, checkout layout, and mobile-friendly menu.

Academic Qualification :

Bachelor of Science
Computer Science & Engineering (CSE)
Prime University
2025 – Present

Diploma in Engineering
Computer Technology
Magura Polytechnic Institute
2020-2024

Languages :

Bangla : Fluent | **English :** Conversational
